Colours marked with a "C" – are standard colours. "F" is marking the fine colours. Please consider that most of these colours are available in darker or lighter version. Please ask for physical color samples. There is always a good chance to hit your demands.

Please notice generally, that in all our colours can be differences – because they are 100% handmade – and we cannot guaranty a strict color code. We always try to come as close as possible to the demanded color. Nevertheless always remember that we melt by hand – with global ingredients – that might change - because of natural differences.
